1  INTRODUCTION

Dear Student

Congratulations on taking the next step in furthering your studies and registering for Module FOR2601, Forensic Methods and Techniques.

This is an exciting module in what we hope will be another exciting academic semester. We trust that you will find your studies rewarding and that the knowledge you acquire will be useful in your daily duties. Since the investigation of crime, transgression and incidents is so extensive, post-matriculation studies are essential if you wish to perform your work as a forensic investigator efficiently and professionally. You are required to supplement your theoretical studies with practical observation and research.

We will do our best to help you succeed in this module. You will be well on your way to success if you start to study early in the semester and resolve to do the assignments properly.

This tutorial letter contains important information about this module. We urge you to read it carefully and to keep it at hand when you work through the study material, complete the assignments, prepare for the examination and address questions to your lecturer.

This tutorial letter contains the assignments for both semesters and instructions for the preparation and submission of the assignments. It also contains general and administrative information about this module. Please study this section of the tutorial letter carefully.

Right from the start, we have to point out that you must read all the tutorial letters that you receive during the semester immediately and carefully, as they will always contain important and sometimes urgent information.

Because this is a blended module, you will need to use myUnisa to study and complete the learning activities for this module. Visit the website for FOR2601 on myUnisa frequently. The website for your module is FOR2601-2019-S1 or FOR2601-2019-S2.

1.1  Getting started

Owing to the nature of this module, you can read about the module and find your study material online. Go to the website at https://my.unisa.ac.za and log in using your student number and password. You will see FOR2601-19-S1/S2 in the row of modules displayed in the orange blocks at the top of the webpage. Select the More tab if you cannot find the module you require in the orange blocks. Then click on the module you want to open.

You will receive this tutorial letter and a printed copy of the online study material for your module. While the printed material may appear different from the online study material, it is the same.

We wish you much success in your studies!

2  OVERVIEW OF FOR2601

2.1  Purpose

This module will be useful to students in the private and public investigation environments who make use of forensic investigation methods, techniques and concepts during the investigative process. This module will give you an overview of the field of forensic
investigation while highlighting the interrelated principles and procedures of criminal investigation. It will also give you an overview of forensic investigative terminology, basic principles, methods, techniques and concepts. The module is aimed at developing investigation competencies regarding forensic investigation methods and techniques in respect of crimes and other irregularities/incidents. The focus is on the practical investigative work of an investigator who functions in the public, private and corporate environment, and not that of the forensic scientist who functions in a laboratory.

Students who complete this module will be able to apply the following appropriate methods and techniques during the forensic investigation of a crime or other incident:

- Display professional conduct during a forensic investigation into criminal/civil transgressions/incidents within the private and public investigation environment.
- Demonstrate an understanding of advanced investigative principles and procedures required for a successful forensic investigation into criminal/civil transgressions/incidents.

2.2 Outcomes

On completion of this module, you should be able to

- display professional conduct during a forensic investigation into criminal/civil transgressions/incidents within the private and public investigation environment
- demonstrate an understanding of the basic principles and procedures relating to the investigation of crimes, incidents and transgressions that may occur in the public, private or corporate environment

3 LECTURER AND CONTACT DETAILS

3.1 Lecturer

The primary lecturer for this module is; Mr Fanie Bierman

Department of Police Practice

3.3 University

To contact the University follow the instructions in the brochure *Study @ Unisa*. Remember to have your student number available whenever you contact the University.

Whenever you write to a lecturer, please include your student number to enable the lecturer to help you more effectively.

4 RESOURCES

4.1 Joining myUnisa

If you have access to the internet, you can quickly access resources and information at the University. The myUnisa learning management system is the University's online campus that will help you communicate with your lecturers, with other students and with the administrative departments at Unisa.

You can start at the main Unisa website at [http://www.unisa.ac.za](http://www.unisa.ac.za) and then click on the myUnisa orange block. This will take you to the myUnisa website. To go to the myUnisa website directly, go to [https://my.unisa.ac.za](https://my.unisa.ac.za). Click on the Claim UNISA Login on the top of the screen on the myUnisa website. You will then be prompted to give your student number in order to claim your initial myUnisa details as well as your myLife e-mail login details.

For more information on myUnisa, consult the brochure *Study @ Unisa*, which you received with your study material.

4.2 Other resources – printed support material

Because we want you to be successful in this blended module, we also provide you with some of the study material in printed format. This will allow you to read the study material even if you are not online.

The printed study material will be sent to you at the beginning of the semester, but you do not have to wait for it before you start studying – you can go online as soon as you have registered and find all your study material there. The material we will send you is an offline copy of the formal content for the online part of the module.

4.3 Library services and resource information

For brief information, go to [www.unisa.ac.za/brochures/studies](http://www.unisa.ac.za/brochures/studies)

For detailed information, go to the Unisa website at [http://www.unisa.ac.za/](http://www.unisa.ac.za/) and click on Library.

4.4 Recommended books

The books below are additional reading material. You can consult these books when you complete your assignments and for your own research purposes.

5 HOW TO STUDY ONLINE

5.1 What does it mean to study a blended module?

Studying a blended module might differ completely from studying some of your other modules at Unisa.

- All your study material and learning activities for blended and fully online modules are designed to be delivered online on myUnisa. Although we supply blended modules with printed material as well, the module is designed to be delivered online.
- All of the communication between you and the University happens online. Lecturers will communicate to you by e-mail, sms and using the Announcements, the Discussion Forums and the Questions and Answers tools. You can also use all of these ways to ask questions and contact your lecturers.
5.2 The myUnisa tools you will use

It is very important that you log in to myUnisa regularly. We recommend that you log in at least once a week to do the following:

- **Check for new announcements.** You can also set your myLife e-mail account to receive the announcement e-mails on your cell phone.
- **Do the Discussion Forum activities.** When you do the activities for each learning unit, we want you to share your answers with the other students in your group. You can read the instructions and even prepare your answers offline, but you will need to go online to post your messages. We have also provided the **Social Cafe** where you can socialise with the other students in the module.
- **Do other online activities.** For some of the learning unit activities you might need to post something on the **Blog tool**, take a quiz or complete a survey under the **Self-Assessment** tool. Do not skip these activities because they will help you complete the assignments and the activities for the module.
- One of the main tools that we use is the **Lessons tool**. The content and assessments of your module will be provided in this tool. At times you will be directed to join discussions with fellow students and complete activities and assessments before you can continue with the content of the module.

We hope that by giving you extra ways to study the material and practise all of the activities, this system will help you succeed in the blended module. To get the most out of the blended module you **MUST** go online regularly to complete the activities and assignments on time.

6 ASSESSMENT

6.1 Assessment plan

There are **TWO assignments** for each semester (**FIRST SEMESTER** and **SECOND SEMESTER**) which must be submitted to the university to be marked. These assignments are as follows:

- Assignment 01 contains multiple-choice questions (MCQ) and counts 20 marks.
- Assignment 02 is a written assignment and counts 100 marks.

You have to complete **BOTH** these assignments and **submit both them by their correct due dates** to gain admission to the examination (Summative assessment). Please note that if you submit the assignment cover only, it will not be accepted as an assignment.

Your assignment marks will be used to calculate your semester mark for the module and will be an important part of your examination mark. Your marks for the assignments will therefore form a vital part of your final mark for the module. Before completing your assignment please read general Tutorial Letter SCHJALL/301/4/2019. This will supply information on the completing of assignments, reference methods and plagiarism.
Note the following:

- **First semester students** must submit their assignments clearly marked "First semester".
- **Second semester students** must submit their assignments clearly marked "Second semester".

You may submit the written assignment either by post or electronically via myUnisa. Please note that the electronic or online submission of assignments is more convenient for all of us and is preferred. Assignments may not be submitted by fax or e-mail. For detailed information on and the requirements for assignments, please consult *Study @ Unisa*. Please ensure that you keep a copy of each assignment that you submit. If your assignment is handwritten, submit the original assignment and keep the copy for your records.

To submit an assignment on myUnisa, do the following:

- Go to myUnisa.
- Log in with your student number and password.
- Select the module.
- Click on **Assignments** on the left-hand menu.
- Click on the number of the assignment that you want to submit.
- Follow the instructions on the screen.

### 6.2 Assignment numbers

#### 6.3 General assignment numbers

Assignments are numbered consecutively per module, starting from 01. This means that for the first semester, you have to submit two assignments numbered "Assignment 01" and "Assignment 02" respectively. Similarly, if you are registered for the second semester, you will submit two assignments numbered "Assignment 01" and "Assignment 02" respectively. It is very important that you correctly indicate which semester you are registered for and take note of the unique numbers that are applicable.

#### 6.4 Unique assignment numbers

The unique numbers for Assignment 01 and Assignment 02 are as follows:

<table>
<thead>
<tr>
<th>Assignment 01</th>
<th>Unique number</th>
</tr>
</thead>
<tbody>
<tr>
<td>First semester</td>
<td>843685</td>
</tr>
</tbody>

6.6 Year mark and final examination

This module (FOR2601) is a semester module in 2019.

- **First semester**: If you are registered for the first semester, you will write the examination in May/June 2019. The supplementary examination will be written in October/November 2019.
- **Second semester**: If you are registered for the second semester, you will write the examination in October/November 2019. The supplementary examinations will be written in May/June 2020.
During the semester, the Examination Section will provide you with information on the examination in general, the examination venue, and the examination date and duration. This information is also available on myUnisa.

**Examination paper**

You will write one two-hour paper, which will count 100 marks. The examination questions have been compiled from the following sources:

- Study guide: Forensic Methods and Techniques (FOR2601)
- Feedback tutorial letters
- Self-assessment activities and questions in the study guide

Your semester mark for this module is as follows:

- weighting of the course: Your semester mark will count 20% and your final exam mark will count 80% towards your final mark for the module.
- You have to submit both the assignments (formative) for the semester for which you are registered to obtain a year mark and so be allowed to sit for the final examination.
